

Appl. No. : 10/032,215
Filed : December 21, 2001

REMARKS

Entry of the foregoing amendment is respectfully solicited. The amendments to Claims 1, 10, 19 are aimed to correct a formal matter of antecedent basis for elements recited in the claims and to improve claim readability. Specifically, the Examiner's amendments to Claims 1, 10, and 19 included the terms "upper perforated portion", "lower perforated portion", and variants thereof, whereas the appropriate elements are first recited as "perforated upper portion" and "perforated lower portion" in each of the claims. Similarly, in Claim 19, the phrase "said magnet adapter and magnet" has been appropriately amended to recite "said magnet holder and said magnet" for proper antecedent basis.

Applicant respectfully submits that this amendment embodies merely the correction of formal matters in a claim without changing the scope thereof, and requires no substantial amount of additional work on the part of the Patent and Trademark Office.

If the Examiner has any questions regarding this amendment, he is requested to contact the undersigned by telephone.

Respectfully submitted,

KNOBBE, MARTENS, OLSON & BEAR, LLP
